Korrayi Karthik

DevOps Engineer | Cloud & Platform Engineering

+91 8968960269 karthikkorrayii@gmail.com linkedin.com/in/karthik-korrayi Hyderabad, Telangana, India

SUMMARY

DevOps Engineer with 3+ years of experience in cloud and on-premises environments, specializing in Azure, AWS, Terraform, CI/CD, Kubernetes, Docker, and application deployment automation. Experienced in building infrastructure automation, Azure DevOps pipelines, containerized workloads, and deployment workflows across enterprise environments.

PROFESSIONAL EXPERIENCE

ITC Infotech **09/2023 – Present**
DevOps Engineer *Hyderabad, Telangana, India*

- Provision and automate **Azure and AWS infrastructure using Terraform**, supporting application environments across cloud and on-premises platforms.
- Build and maintain **Azure DevOps Server repositories, CI/CD pipelines, build/release workflows, and self-hosted agents** for automated application delivery.
- Develop reusable **Azure Accelerators and automation components** to standardize infrastructure provisioning and streamline environment deployment.
- Automate deployment and update workflows for **IIS-hosted applications, Azure App Services, and Windows Services**, reducing manual deployment activities.
- Support deployment and configuration of **Java/Spring Boot and .NET applications** across cloud and on-premises environments, including CI/CD integration and application server configuration.
- Containerize and deploy applications using **Docker and Kubernetes**, primarily working with **AKS**, with additional exposure to **EKS**.
- Manage Kubernetes resources including **Deployments, Services, Ingress, ConfigMaps, and Secrets**, supporting application deployment and configuration management.
- Troubleshoot **CI/CD, infrastructure, application, deployment, and configuration issues** across cloud and on-premises environments while collaborating with development and infrastructure teams.

SKILLS

Cloud: Microsoft Azure, AWS

CI/CD & DevOps: Azure DevOps, Azure DevOps Server, Azure Repos, YAML Pipelines, GitHub Actions, Jenkins, GitLab CI/CD, Build & Deployment Agents

Infrastructure as Code: Terraform, Bicep, ARM Templates

Containers & Orchestration: Docker, Kubernetes, Azure Kubernetes Service (AKS), Amazon Elastic Kubernetes Service (EKS), Azure Container Apps, Azure Container Registry

Azure: App Services, AKS, ACR, Virtual Machines, VNets, Key Vault, Functions, Storage

AWS: EC2, EKS, VPC, ELB, Auto Scaling, CloudWatch

Application & Server: Java, Spring Boot, .NET, IIS, Windows Services

Application Development: Next.js, Angular, Node.js

Databases & Backend: PostgreSQL, MySQL, MongoDB, Supabase

Monitoring & Quality: Azure Monitor, Zabbix, SonarQube

Scripting & APIs: Bash/Shell, REST APIs

ITSM: ServiceNow, Azure Boards, Jira

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering
Lovely Professional University
07/2019 – 06/2023 | *Phagwara, Punjab, India*

PROJECTS

Returnly — Items Lost & Recovery Platform
Currently in development

- Developing a full-stack lost-and-found platform for **item registration, QR-based tracking, reporting, and recovery workflows**.
- Building authentication and data management using **Supabase Auth and PostgreSQL**, with Row Level Security for controlled data access.
- Implementing **real-time database subscriptions** to support responsive application workflows.
- Developing containerized CI/CD workflows using **Docker and GitHub Actions**, with deployment targeting **Azure Container Apps**.

CERTIFICATES

Microsoft Certified: Azure Administrator Associate — AZ-104

Microsoft Certified: DevOps Engineer Expert — AZ-400

AWS Certified DevOps Engineer – Professional
